

# SenesTech to Present at 30th Annual ROTH Capital Conference on March 13, 2018

**Webcast presentation to occur at 7:30am PT (10:30am ET)**

FLAGSTAFF, Ariz., March 6, 2018 /PRNewswire/ -- SenesTech, Inc. (NASDAQ: SNES), a developer of proprietary technologies for managing animal pest populations through fertility control, will be presenting at the 30th Annual ROTH Capital Conference. The conference is being held on March 11-14, 2018 at The Ritz-Carlton in Dana Point, CA.

Dr. Loretta Mayer, Chair, Co-Founder and Chief Executive Officer, and Tom Chesterman, Chief Financial Officer, are scheduled to present on Tuesday, March 13 at 7:30 am PT (10:30 am ET). The presentation will be webcast and available for replay [here](#). Management will also hold one-on-one meetings with investors and analysts at the conference on Monday and Tuesday, March 12-13.

Investors interested in arranging one-on-one meetings should contact your ROTH representative. Conversely, you may also call or email Lytham Partners at (602) 889-9700 or [senestech@lythampartners.com](mailto:senestech@lythampartners.com).

A copy of the slide presentation SenesTech will be referencing during the conference will be available in the Investor Relations section of the company's website at [www.senestech.com](http://www.senestech.com).

## About SenesTech

SenesTech is changing the paradigm of pest management by targeting the root cause of the problem: reproduction.

ContraPest® is an innovative technology with an approach that targets the reproductive capabilities of both sexes in rat populations, inducing egg loss in female rats and impairing sperm development in males. Using a proprietary bait delivery method, ContraPest® is dispensed in a highly palatable liquid formulation that promotes sustained consumption by rat communities. ContraPest® is designed, formulated and dispensed to be low hazard for handlers and non-target species such as wildlife, livestock and pets, where the active ingredients break down rapidly. ContraPest® is a Restricted Use Pesticide.

We believe ContraPest® will establish a new paradigm in rodent control, resulting in a decreased reliance on lethal options. For more information visit the SenesTech website at [www.senestech.com](http://www.senestech.com).

## Safe Harbor Statement

*This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors and other risks identified in our filings with the Securities and Exchange Commission. Forward looking statements include, but are not limited to, our expectation regarding sales commitments, our expectation regarding the conversion of sales commitments and programs to revenue, our belief that our product is more humane, less harmful to the environment and more effective than traditional methods, and our belief that ContraPest will establish a new paradigm in rodent*

*control without environmental effects of rodenticides. All forward-looking statements contained in this press release speak only as of the date on which they were made and are based on management's assumptions and estimates as of such date. We do not undertake any obligation to publicly update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise.*
