

SenesTech Invited to Address National Pestmaster Conference

FLAGSTAFF, Ariz., March 4, 2019 /PRNewswire/ -- SenesTech, Inc. (NASDAQ: SNES), a developer of proprietary technologies for managing animal pest populations through fertility control, announced today that it has been invited and will participate in the Pestmaster Services national training and development conference in Reno, Nevada. Pestmaster Services, "Pest Management with Environmentality®" (Pestmaster), is a pest control industry leader and one of the leading authorities on Integrated Pest Management (IPM) solutions. SenesTech will be addressing current issues in pest management and provide product updates and support for current and proposed deployments of ContraPest®. Pestmaster is a GSA services provider for Government contracts, a market opportunity they are expanding with deployment of ContraPest® this quarter.

"Pestmaster is a valued partner with whom we share a commitment to the environment and planet. We are dedicated to providing the most sound science and effective solutions to their nationwide network. We have a number of deployments with them around the nation, and more in the planning stage," said Dr. Loretta Mayer, CEO and co-founder of SenesTech. "We are fortunate to be able to expand our our vision and nascent revenue opportunities with them. We agree with their conference title for this year."

PESTMASTER: Power of the Past 40 Years – A Force of the Future

About SenesTech

SenesTech is changing the paradigm of pest management by targeting the root cause of the problem: reproduction.

ContraPest® is an innovative technology with an approach that targets the reproductive capabilities of both sexes in rat populations, inducing egg loss in female rats and impairing sperm development in males. Using a proprietary bait delivery method, ContraPest® is dispensed in a highly palatable liquid formulation that promotes sustained consumption by rat communities. ContraPest® is designed, formulated and dispensed to be low hazard for handlers and non-target species such as wildlife, livestock and pets, where the active ingredients break down rapidly.

We believe ContraPest® will establish a new paradigm in rodent control, resulting in a decreased reliance on lethal options. For more information visit the SenesTech website at www.senestech.com.

Safe Harbor Statement

This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors and other risks identified in our filings with the Securities and Exchange Commission. Forward looking statements include, but are not limited to, our expectation regarding sales commitments, our expectation regarding the conversion of sales commitments

and programs to revenue, our belief that our product is more humane, less harmful to the environment and more effective than traditional methods, and our belief that ContraPest will establish a new paradigm in rodent control without environmental effects of rodenticides. All forward-looking statements contained in this press release speak only as of the date on which they were made and are based on management's assumptions and estimates as of such date. We do not undertake any obligation to publicly update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise.
