

SenesTech Announces Third Quarter 2019 Financial and Operational Results

FLAGSTAFF, Ariz., Nov. 12, 2019 /[PRNewswire](#)/ -- SenesTech, Inc. (NASDAQ: SNES), a developer of proprietary technologies for managing animal pest populations through fertility control, today announced financial and operational results for the third quarter of fiscal 2019, which ended September 30, 2019.

Washington D.C. Data Confirms Effectiveness of ContraPest as Citywide Deployment Continues

As recently reported, preliminary camera data indicates a 77% reduction in the proportion of juveniles to adults after the addition of ContraPest to DC Health's current rodent control program. A reduction of juvenile rats is an early sign that fertility control is progressing. Based on discussions with city officials, the Company believes the city is continuing to expand its city-wide deployment of ContraPest. As previously reported, the city awarded a supply agreement with one of SenesTech's distributors, Pestmaster Services, for up to \$300,000 of ContraPest purchases per year for up to four years.

"We have always known that ContraPest was an effective solution in lab and controlled settings in reducing the population of rats, however this is an opportunity to showcase and validate the effectiveness in a larger, less controlled setting. This data will be quite helpful to our team's marketing efforts within the municipal market vertical. I thank Washington D.C. for their commitment to deploy ContraPest, and now expand it on a city-wide basis to win the 'war on rats,'" commented Ken Siegel, SenesTech's CEO.

The Company has similar programs in place in St. Louis, San Francisco, Los Angeles and elsewhere, which are in earlier stages than Washington D.C.

Focused Sales Approach Continues to Target Key Verticals and Geographies

"During the quarter, we made important progress on each of our focused market verticals and geographies," Siegel continued. "These focus areas include zoos and animal sanctuaries, agriculture, and municipalities with a current geographic emphasis on California."

"We have augmented our internal technical sales team with the launch of a contract sales organization, initially focused on animal sanctuaries and zoos, and soon to expand to sales and lead generation efforts within the pest management professional (PMP) market," continued Mr. Siegel.

"We have also progressed in our marketing within the agriculture market, with key program launches in poultry and egg production and organic farming. This includes recent announcements regarding approval by the California Certified Organic Farmers for ContraPest's use at one of the largest organic rice farming operations in the state, as well as the recent announcement of our program at an undisclosed poultry/egg production facility. Californians are clearly motivated to remove harmful rodenticides from the environment, which includes AB1788, a bill currently in process to ban or limit the use of second generation anticoagulant rodenticides. We look forward to continued traction within California in 2020," concluded Mr. Siegel.

Third Quarter 2019 Financial Results

Revenues from product sales during the Q3 2019 ended September 30, 2019 were \$36,000, compared to \$24,000 of revenue from product sales during the Q2 2019. Q3 2019 operating expenses were \$2.6 million. Net operating loss for Q3 2019 was \$(2.6) million, compared with a net operating loss of \$(2.3) million during Q2 2019. Adjusted EBITDA, which is a non-GAAP measure of operating performance, was \$(2.3) million during Q3 2019, compared to \$(2.0) million during Q2 2019.

"Not included in the quarter's recognized revenue was an additional order for ContraPest of \$38,000 received on September 30th. We expect this to be released and recognized as revenue over the coming quarters," said Tom Chesterman, SenesTech's CFO.

The Company ended the quarter with \$3.9 million in cash.

Use of Non-GAAP Measure

Adjusted EBITDA is a non-GAAP measure. However, this measure is not intended to be a substitute for those financial measures reported in accordance with GAAP. Adjusted EBITDA has been included because management believes that, when considered together with the GAAP figures, it provides meaningful information related to our operating performance and liquidity and can enhance an overall understanding of financial results and trends. Adjusted EBITDA may be calculated by us differently than other companies that disclose measures with the same or similar term. See our attached financials for a reconciliation of this non-GAAP measure to the nearest GAAP measure.

Conference Call Details

Date and Time: 5:00 pm ET (2:00 pm PT) on Tuesday, November 12, 2019

Call-in Information: Interested parties can access the conference call by dialing (844) 308-3351 or (412) 317-5407.

Live Webcast Information: Interested parties can access the conference call via a live Internet webcast, which is available in the Investor Relations section of the Company's website at <http://senestech.investorroom.com/>.

To Ask a Question: The conference call will be moderated by Lytham Partners, an investor relations firm. There will be three options to ask a question during the call:

- Questions can be asked live during the call-in portion of the conference call.
- The live webcast will feature an option to submit questions in writing during the event.
- If you are unable to attend the event, you can submit a question in advance to Senestech@LythamPartners.com.

Replay:

A teleconference replay of the call will be available for three days at (877) 344-7529 or (412) 317-0088, confirmation #10136574. A webcast replay will be available in the Investor Relations section of the Company's website at <http://senestech.investorroom.com/> for 90 days.

About SenesTech

SenesTech has developed and is in the process of commercializing a proprietary technology for managing animal pest populations, primarily rat populations, through fertility control. For more information visit the SenesTech website at www.senestech.com.

Safe Harbor Statement

The foregoing paragraphs contain forward-looking statements that involve estimates, assumptions, risks and uncertainties. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. "Forward-looking statements" may be preceded by words such as "may," "future," "plan" or "planned," "will," "should," "expected," "anticipates," "continue," "eventually," "believes," or "projected." Forward-looking statements include statements concerning target marketing and markets; continuing the Company's vision; deployment of the Company's product; the continuation or expansion of the use of ContraPest; demand for ContraPest; the Company's expectations on regulatory developments, such as AB 1788; the Company's continuing to control expenses and cash; future financial results; and the Company's execution of its strategic business plan.

Investors should not unduly rely on forward-looking statements. Such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those made in the forward-looking statements, including as a result of various factors and other risks, such as market acceptance and demand for the Company's products, customers completing order commitments, the Company's ability to reduce costs and execute on its plans and continuing to believe it is following the best strategy, the Company having sufficient financing, and other factors identified in the Company's filings with the Securities and Exchange Commission, including its annual report on Form 10-K and quarterly reports filed on Form 10-Q. All forward-looking statements speak only as of the date on which they were made based on management's assumptions as of such date. The Company does not undertake any obligation to update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise.
