

# SenesTech Announces First Quarter 2020 Financial and Operational Results

PHOENIX, May 15, 2020 /[PRNewswire](#)/ -- SenesTech, Inc. (NASDAQ: SNES), a developer of proprietary, next generation technologies for managing animal pest populations through fertility control, today announced financial and operational results for the first quarter of fiscal year 2020, which ended on March 31, 2020.

Ken Siegel, CEO of SenesTech, commented, "We are working through the impact of COVID-19, which has presented challenges, especially to our field work and direct sales. We have been particularly challenged by our field research and sales teams' inability to directly interact with customers, including a number of project locations within the poultry, municipal, and retail segments. In terms of opportunities, we successfully launched our direct-to-consumer model towards the end of the first quarter. We plan to leverage this sales tool quickly and expand adoption of ContraPest in the DIY market, while also resuming our field efforts as COVID-19 restrictions ease."

"At the same time, we note a renewal of attention on public health and finding solutions to reduce vectors of disease transmission, such as rats. We expect that this surge in awareness will lead to more customers looking for solutions that can effectively address rodent control," Mr. Siegel concluded.

## Financial Results Highlights

- Revenue during the first quarter of 2020 was \$37,000 compared to \$19,000 in the year ago first quarter.
- On a GAAP basis, net loss for the first quarter of 2020 was \$(2.3) million, compared with a net loss of \$(2.4) million for first quarter of 2019.
- Adjusted EBITDA loss, which is a non-GAAP measure of operating performance, for the first quarter of 2020 was \$(2.1) million versus \$(2.0) million in the first quarter of 2019.
- Subsequent to the end of the first quarter of 2020, the Company closed an approximately \$5.0 million public offering priced at-the-market under Nasdaq rules, and entered into a loan agreement in an aggregate principal amount of \$645,700 pursuant to the Paycheck Protection Program under the Coronavirus Aid, Relief, and Economic Security Act. Cash at the end of the first quarter of 2020, together with the loan and the net proceeds from the public offering, was \$6.4 million.

In response to the uncertainty created by the novel coronavirus (COVID-19), the Company implemented a number of operational safeguards and greatly reduced business travel and in-office presence. In addition, our non-employee directors and executive officers agreed to a 25% reduction in cash compensation. The Company will continue to evaluate the impact from the global pandemic and determine what further steps will be appropriate.

## Use of Non-GAAP Measure

Adjusted EBITDA is a non-GAAP measure. However, this measure is not intended to be a substitute for those financial measures reported in accordance with GAAP. Adjusted EBITDA has been included because management believes that, when considered together with the GAAP figures, it provides meaningful information related to our operating performance and liquidity and can enhance an overall understanding of financial results and trends. Adjusted EBITDA may be calculated by us differently than other companies that disclose measures with the same or similar term. See our attached financials for a reconciliation of this non-GAAP measure to the nearest GAAP measure.

#### About SenesTech

SenesTech is changing the model for pest management by targeting one of the root causes of the problem: reproduction.

ContraPest® is an innovative technology with an approach that targets the reproductive capabilities of both sexes in rat populations, inducing egg loss in female rats and impairing sperm development in males. Using a proprietary bait delivery method, ContraPest® is dispensed in a highly palatable liquid formulation that promotes sustained consumption by rat communities. ContraPest® is designed, formulated and dispensed to be low hazard for handlers and non-target species such as wildlife, livestock and pets, where the active ingredients break down rapidly.

We believe ContraPest® will establish a new paradigm in rodent control, resulting in a decreased reliance on lethal options. For more information visit the SenesTech website at [www.senestech.com](http://www.senestech.com).
