

SenesTech Announces Reverse Stock Split

Common Stock Will Begin Trading on a Split-Adjusted Basis on November 16, 2022

PHOENIX, Nov. 15, 2022 /PRNewswire/ -- SenesTech, Inc. (NASDAQ: SNES, "SenesTech" or the "Company") (www.senestech.com) the rodent fertility control experts and inventors of the only EPA registered contraceptive for male and female rats, ContraPest®, today announced that it intends to effect a reverse stock split of its common stock at a ratio of 1 post-split share for every 20 pre-split shares. The reverse stock split will become effective at 11:59 p.m, Eastern Time, on November 15, 2022. The Company's common stock will continue to be traded on the Nasdaq Capital Market under the symbol "SNES" and will begin trading on a split-adjusted basis when the market opens on November 16, 2022.

SENESTECH

At a special meeting of stockholders held on October 12, 2022, the Company's stockholders granted the Company's Board of Directors the discretion to effect a reverse stock split of the Company's common stock through an amendment to its Amended and Restated Certificate of Incorporation, as amended, at a ratio of not less than 1-for-5 and not more than 1-for-20, with such ratio to be determined by the Company's Board of Directors.

At the effective time of the reverse stock split, every 20 shares of the Company's issued and outstanding common stock will be converted automatically into one issued and outstanding share of common stock without any change in the par value per share. Stockholders holding shares through a brokerage account will have their shares automatically adjusted to reflect the 1-for-20 reverse stock split. It is not necessary for stockholders holding shares of the Company's common stock in certificated form to exchange their existing stock certificates for new stock certificates of the Company in connection with the reverse stock split, although stockholders may do so if they wish.

The reverse stock split will affect all stockholders uniformly and will not alter any stockholder's percentage interest in the Company's equity, except to the extent that the reverse stock split would result in a stockholder owning a fractional share. Any fractional share of a stockholder resulting from the reverse stock split will either be (i) rounded up to the nearest whole share of common stock, if such shares of common stock are held directly; or (ii) rounded down to the nearest whole share of common stock, if such shares are subject to an award granted under the Company's 2018 Equity Incentive Plan, in order to comply with the requirements of Sections 409A and 424 of the Internal Revenue Code of 1986. The reverse stock split will reduce the number of shares of the Company's common stock outstanding from 12,212,950 shares to approximately 610,648 shares. Proportional adjustments will be made to the number of shares of the Company's common stock issuable upon exercise or conversion of SenesTech's equity awards and warrants, as well as the applicable exercise price. Stockholders whose shares are held in brokerage accounts should direct any questions concerning the reverse stock split to their broker. All stockholders of record may direct questions to the Company's transfer agent, Transfer Online, Inc., at (503) 227-2950.

About SenesTech

We are "The Pest Control Difference" for the 21st century. We are rodent fertility control specialists fueled by our passion to create a healthy environment by virtually eliminating rodent pest populations. We keep an inescapable truth in mind. Two rats and their descendants can be responsible for the birth of up to 15,000 rat pups after a year. We invented ContraPest, the only U.S. EPA registered contraceptive for male and female rats. ContraPest fits seamlessly into all integrated pest management programs, greatly improving the overall goal of effective rat management. We strive for clean cities, efficient businesses and happy households – with a product that was designed to be effective and sustainable without killing rats. At SenesTech, we don't just eliminate rats. We make a better world.
