About SenesTech

We are "The Pest Control Difference" for the 21st century. We are rodent fertility control specialists fueled by our passion to create a healthy environment by virtually eliminating rodent pest populations. We keep an inescapable truth in mind: 2 rats and their descendants can be responsible for the birth of up to 15,000 pups in a year. We invented ContraPest, the only U.S. EPA-registered contraceptive for male and female rats. ContraPest fits seamlessly into all integrated pest management programs, greatly improving the overall goal of effective rat management. We strive for clean cities, efficient businesses, and happy households – with a product that was designed to be effective and sustainable without killing rats. At SenesTech, we don't just eliminate rats. We make a better world.
