

SENESTECH LAUNCHES EVOLVE™ RODENT BIRTH CONTROL ON WALMART MARKETPLACE

Significantly Expanding Market Reach

PHOENIX, Nov. 12, 2024 /PRNewswire/ -- SenesTech, Inc. (Nasdaq: SNES; "SenesTech" or the "Company"), a leader in fertility control solutions for managing animal pest populations, is excited to announce a significant expansion in the distribution of its groundbreaking rodent birth control product. *Evolve™ Rat and Evolve™ Mouse* are now available on **Walmart Marketplace**, one of the largest and most trusted eCommerce platforms in the world.

SENESTECH

SenesTech developed its proprietary technology for managing rat and mouse populations—through fertility control. *Evolve* is the Company's minimum-risk soft bait, providing a proactive approach to rodent control without the use of traditional poisons. When used as directed, *Evolve* is safe for people, pets, wildlife and the environment because it's not a poison.

"Evolve was created because you cannot poison, trap or drown rodents fast enough without addressing the reproductive rate," said Joel Fruendt, President and CEO of SenesTech. *"Restricting their ability to reproduce with continuous usage of Evolve results in a significant reduction in the population within 2-3 months. By bringing Evolve to Walmart Marketplace, we're now making it accessible to consumers across the U.S. who are looking for an innovative and humane way to tackle rodent infestations."*

Evolve Rat and Evolve Mouse target the root cause of rodent overpopulation by controlling the fertility in both male and female rodents. Instead of simply reacting to rodent infestations with poisons, the active ingredient in *Evolve* has been shown to effectively lower fertility rates which significantly reduces populations. Plus, it's highly palatable, easy to use, and versatile for use in various environments, inside and out.

"With Evolve, we're not just treating infestations; we're changing the future of rodent control. Two rats, if left unchecked, can produce up to 15,000 offspring in a single year," Fruendt added.

Furthermore, as regulations in states like California increasingly restrict the use of traditional poisons, consumers and professionals alike are turning to innovative, non-poisonous solutions such as *Evolve*.

"Our expansion into Walmart Marketplace will contribute significantly to the continued growth and adoption of Evolve, helping more households and businesses make the shift to sustainable and humane pest management," concluded Fruendt.

About SenesTech

SenesTech is committed to creating healthier environments by humanely managing animal pest populations through fertility control. The company is an expert in fertility control technologies and has pioneered products like *ContraPest®*, the only EPA-registered contraceptive for both male and female rats, and *Evolve™*, an EPA-designated minimum-risk contraceptive soft bait. Both products are designed to integrate seamlessly into pest management programs, significantly enhancing their effectiveness while reducing reliance on traditional poisons. SenesTech strives to create cleaner cities, more efficient businesses, and happier households with products that are humane, effective, and sustainable.
